

## Walk-Behind Floor Scrubber with Traction Drive

*Exceptional cleaning performance for virtually any hard floor surface*

ERIClean’s E531BD self-propelled floor scrubber delivers with its cleaning efficiency and durable construction. Designed with operators in mind, the touch panel controls are easy to use and understand. Capable of wet washing more than 28,500 square feet per hour, operators will spend more time cleaning and less time refilling thanks to its generously sized solution tank and tiltable recovery tank.

The patented, rust-resistant aluminum brush deck and squeegee assembly automatically loads and unloads the brushes with the push of a button, helping to extend the brush plate’s lifetime and minimizing the risk of user error or damage. An adjustable brush pressure feature ensures optimum cleaning performance on a variety of floor surfaces, including ceramic tile, concrete, epoxy, and VCT tile, and in light to heavy soil situations.

Additional features include a noise reduction system which allows for quiet operation (<68dB) during standard working hours; a mechanical defoaming system; recovery tank capacity alarm; and a controller with digital overcurrent and undervoltage protection functions.

The E531BD’s 1\*24V100Ah Lithium Iron Phosphate (LiFePO4) battery offers an industry-leading 3,000 charge cycles versus 600 cycles from a traditional battery and a run time of 4-6 hours on a single charge.

### E531BD EXCEPTIONAL CLEANING PERFORMANCE

This compact and maneuverable cleaner boasts a 20-inch washing width, 480W brush motor, adjustable down pressure, and a brush speed of 153 rpm. A powerful 400W vacuum motor ensures 100 percent water recovery for a safe and dry floor.

#### SPECIFICATIONS

- Cleaning Productivity (theoretical): 28524/22604 f<sup>2</sup>/ph
- Machine Width with Squeegee: 31 in
- Washing Width: 20 in
- Max Speed: 3.1 mph
- Solution Tank Capacity: 13 gal
- Recovery Tank Capacity: 12 gal
- Voltage: 24V
- Brush Motor Power: 480W
- Vacuum Motor Power: 400W
- Drive Motor Power: 150W
- Brusher Dimension: 20 in
- Brush Speed: 153 rpm
- Brush Pressure: 50/70 lbs
- Vacuum Power: 1.8 psi
- Sound Level at 1.5m: <68
- Battery Compartment Size: 13”x13”x9”
- LiFePO4 Battery Capacity: 1\*24V100Ah
- Run Time: 4-6 hours
- Gross Weight: 417 lbs
- Dimensions: 48”x21”x42”

#### Why Choose ERIClean?

At ERIClean, we build commercial cleaning equipment that gets the job done. We invest in thoughtful designs and features that increase effectiveness and decrease the cost of operation. All ERIClean products come with a satisfaction guaranteed, three-year warranty.
